PLANNING FOR THE FUTURE

A carefully planned funeral service can be one of the best investments you can make for your family's future. It spares them from having to face decisions that can be both emotionally and financially difficult during one of the most stressful times in their lives.

Thinking about death is never easy, but perhaps one of the most thoughtful things you can do for your loved ones is to spare them the anxiety of making funeral arrangements. Although you can't prevent all the pain and pressure at the time of death, you can eliminate most of the anxiety, worry and doubt that does occur. There is no time like the present to take care of your family's future. You can begin by preplanning.

*You'll gain peace of mind
when you prearrange.
You ensure that your
wishes are known, and
you protect your loved
ones from having to make
difficult decisions at one
of the most trying times
in their lives.*

WHEN YOU PREPLAN, YOU WILL BE ABLE TO:

- Make all the arrangements ahead of time so that your family doesn't have to during their time of grief
- Express your own wishes for funeral preferences
- Avoid the chances of emotional overspending
- Ensure that personal records are organized and easy for your survivors to locate
- Save your family money by choosing options for a simple service

Funeral prearrangement is a practical choice. Hundreds of thousands of people like you have completed all arrangements for their funerals because prearrangement is an essential part of overall estate planning.
